DETAILED ACTION

Election/Restrictions

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:

I. Claims 1-7, drawn to a variable geometry turbine, classified in class 60, subclass 602.

II. Claims 8-21, drawn to controlling a variable geometry turbine, classified in class 60, subclass 325.

III. Claims 22-25, drawn to a turbocharger housing, classified in class 701, subclass 100.

IV. Claim 26, drawn to a variable geometry turbine, classified in class 415, subclass 148.

The inventions are distinct, each from the other because of the following reasons:

2. Inventions I, II, III and IV are related as subcombinations disclosed as usable together in a single combination. The subcombinations are distinct from each other if they are shown to be separately usable. In the instant case, inventions I, II, III and IV have separate utility such as set forth above. See MPEP § 806.05(d).

3. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by

their different classification, restriction for examination purposes as indicated is proper.

4. During a telephone conversation with Mr. Chris James on September 28, 2004, a provisional election was made without traverse to prosecute the invention of Group I, claims 1-7. Affirmation of this election must be made by applicant in replying to this Office action. Claims 8-26 stand withdrawn from further consideration by the examiner, 37 CFR 1.142(b), as being drawn to a non-elected invention.

Allowable Subject Matter

5. Claims 1-7 are allowed.

6. The following is an examiner's statement of reasons for allowance: None of the closest prior art references teach an electronic sensor for sensing movement of the crank shaft within the combination as recited by applicant.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

7. This application is in condition for allowance except for the presence of claims 8-26 to inventions non-elected without traverse. Accordingly, claims 8-26 have been cancelled.

Conclusion

8. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.
